

Rajitha Yerram

Lead DevOps Architect

Goldman Sachs

Salt Lake, Utah

Dear Rajitha,

With five years of experience in DevOps and Site Reliability Engineering, I am confident that I will be an excellent fit for Goldman Sachs' next Senior DevOps & Cloud Engineer. My experience has provided me with the innovative and technical skills necessary to successfully provide your company with multifaceted technical solutions across a wide range of software platforms.

At New Enterprise, I am responsible for leading the development for three high-traffic commerce websites that offer 12 million monthly users customizable documents. I oversee the enterprise level Continuous Integration and Continuous Deployment architecture via Jenkins and TeamCity frame, Configuration Management by Ansible, Infrastructure provisioning by Terraform and Elasticsearch. I was instrumental in building several pipelines that includes microservices architecture, comprising order entry/management tools, conversion/revenue reporting, and production workflow tracking, as well as designed custom REST APIs built in Python. I also successfully collaborate with Enterprise DevOps team to provision Dev, QA, stage and Production environments.

I have refined my strengths through five years of experience in DevOps. The following is a snapshot of my broader technical skills:

Agile Project Management

ELK Stack

Cloud Services

Infrastructure Provisioning

Networking Devices and Tools

It would be a pleasure to learn more about your business requirements, and I would welcome the chance to provide further insight into my knowledge of project management, technical abilities, personal attributes, and track record of success in building revenue generating web technologies compatible across multiple platforms, browsers, and devices.

Thank you for considering my candidacy for this position. I hope to hear from you soon to schedule an interview.

MY ASPIRATIONS

I aspire to work for Goldman Sachs as *Principle DevOps Architect and Cloud Advocate*
